

EmpathyMap

Date	29 June 2026
TeamID	
ProjectName	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS	THINKS
1) I want to grow the most suitable crop for my land. 2) I need higher crop yield with lower farming costs. 3) I don't want to waste money on unnecessary fertilizers. 4) I need reliable recommendations based on my	1) Is my soil suitable for this crop? 2) Which crop will give me the highest profit this season? 3) Will changing weather affect my crop production? 4) Can technology help me
Farmer / Agricultural Land Owner	
DOES	FEELS
1) Tests soil for N, P, K, and pH values. 2) Checks local weather conditions before planting. 3) Uses the OptiCrop application to get crop recommendations. 4) Selects crops based on the	1) Worried about crop failure due to climate changes. 2) Anxious about increasing fertilizer and farming costs. 3) Hopeful that AI-based recommendations will improve productivity. 4) Confident after receiving
